

Meeting 3-4/26/23

Note taken by : Leo Su

User story needs acceptance criteria

Have the third release note by tomorrow recitation

By next week team meeting(not sure in person or not, TBD) have the fourth release note.

Have more details for the meeting logs in the future, week 2 meeting log is way too simple.

Matthew was having internet issues, he should send Nathan an update on what he did this week.

Work on the UI, two guys work on the backend and everyone else should work on the front end, because the Trip page is not looking good.
